

I have very much enjoyed not being bombarded by unwanted phone calls. I still get one that slips through every now and again, but the drop off has been almost 100%.

What really bothers me is my number is also unlisted. My phone is for MY CONVIENCE! It is not for telemarketer's convience. Please keep the law the way it is now. The general population does not need (or want) to be bothered by or taken advantage of annoying, misleading, and deceptive telemarketers.
